Summary

Data Analyst with 2+ years of experience leveraging data analysis, machine learning, and automation to solve business problems and improve decision-making. Proven ability to extract insights from diverse data sources, develop data visualizations, and build automated tools that enhance efficiency and performance. Skilled in communication and collaboration, with a strong track record of delivering results across various industries.

Summer Internship   2 Months

ABP Network Pvt. Ltd.	Product Manager Intern	Apr 2023 - May 2023

OpenAI Integration with ABP CMS	• **Leveraged OpenAI API to design features** that **enhance productivity** and **streamline the publishing process**. • **Implemented features** like a keyword generator, headline & lead generator, meta title, and description generator, resulting in a **15% reduction in content creation and publishing time** and a **10% improvement in SEO scores**.
Gaming Content Recommendation	• **Extracted session data** from Google Analytics and **preprocessed it using Python**. • **Analyzed correlations** to identify games with low visit rates but high session times. **Recommended these games for increased visibility**, resulting in a **20% user engagement increase**, improved website performance & user experience.

Professional Experience   30 Months

State Street HCL	Analyst	Nov 2020 - Dec 2021

- **Leveraged Pandas and Python** skills to **extract and analyze data** from diverse sources**, generating actionable insights** for key stakeholders.
- **Created operational reports in Power BI** to **identify improvement areas** and **optimize resource allocation**, resulting in a **7% cost reduction**.
- **Coached 5 new hires** on data extraction, report building, data analysis fundamentals, and data visualization aesthetics.
- **Developed and implemented** a new, optimized reporting system leveraging Python and Power BI to deliver **real-time insights** for business KPIs.

Resident Tax	Associate	Jul 2019 - Oct 2020

- **Managed communication** between various teams and stakeholders to ensure **efficient development** of the Resident Tax App.
- **Developed product dashboards and reports using Power BI,** resulting in **25% faster decision-making** and **improved data accuracy by 15%.**
- **Generated over 1,000 leads** through the design and implementation of **targeted marketing campaigns** and **email content.**
- **Analyzed competitors and market trends** to design the user interface (UI) and wireframes for the Resident Tax App.

Projects

Car Resale Value Prediction App	• **Programmed a machine learning model** achieving **92% accuracy** through **optimization techniques like grid search CV**. • **Deployed the model on a web application** to facilitate **easy price prediction** based on user-provided car details.
Sentiment Analysis for "Bhumi NGO"	• **Trained a Latent Dirichlet Allocation (LDA) model** to **classify topics** from scraped tweets using SNS Scrape. This enabled the NGO to **quantify stakeholder sentiment** across 3 key areas of their operations. • **Further analyzed sentiment** using the RoBERTa model, providing **data-driven insights** for improved decision-making, strategic planning, and stakeholder engagement.
Financial Portfolio Optimizer	• **Programmed a portfolio optimization script** that calculates **optimal investment weights for up to 9 financial instruments in under a minute**. This tool empowers **individuals and organizations** to **maximize returns**, **minimize risks**, and **make informed investment decisions**.
