Summary

Product Manager contributing to a large-scale platform modernisation managing 350K+ monthly transactions. Owns and delivers end-to-end product modules, driving measurable impact including 2,500+ ops hours saved/month and 10x throughput gains across a hybrid BA/PM/Analytics role with 9 stakeholder groups. PGDM in Big Data Analytics; strong SQL, Python, and data foundation.

Skills

Product Roadmap · Requirements Gathering · Requirements Analysis · Stakeholder Management · Agile · Process Mapping · API Integration · Data Analytics · Data Modeling · SQL · Python · Machine Learning · Power BI

Experience

TeamLease HRtech, Product Manager | Bengaluru, IN | Jan 2025 – Present

- Contributed to rebuilding a 20-year-old legacy platform as a module owner within a 30-person engineering team.
- Gathered and synthesized cross-functional requirements spanning 9 stakeholder groups across business and engineering functions.
- Redesigned a compliance data architecture, cutting field input time by 87% from 40 seconds to 5 seconds.
- Delivered a document generation module automating 50,000 monthly transactions, saving 2,500+ operational hours per month.
- Reduced document error and rejection rates by ~10% by engineering a strengthened multi-layer validation system.
- Delivered a data ingestion module with 10x+ throughput -50,000 records in 15 minutes versus 5,000 per hour.
- Engineered a third-party vendor automation pipeline via API integration, cutting per-record processing from 5 min to 5 sec.

ABP Network, Product Manager (Intern) | Noida, IN | Apr 2023 – May 2023

- Elicited and synthesized requirements from multiple stakeholder interviews, translating inputs into a structured product roadmap.
- Delivered 5+ product features reducing operational time by 15%, driving them from requirements through production deployment.
- Optimized product features through rigorous testing, ensuring seamless, defect-free performance across production environments.
- Drafted a comprehensive PRD capturing full project scope, stakeholder requirements, and extended future product roadmap.
- Preprocessed 100+ Google Analytics session URLs using Python, enabling structured, analysis-ready engagement data for insights.
- Analyzed user engagement correlations in game data, driving a 20% uplift in engagement and monetization revenue.

State Street HCL, Analyst | Pune, IN | Nov 2020 – Dec 2021

- Supported a high-stakes client transition program, directly contributing to a \$100K increase in Annual Recurring Revenue.
- Resolved a \$10M+ backlog of overdue transactions, restoring operational continuity and significantly improving client satisfaction.
- Authored comprehensive SOPs for all standard operations and trained 5 new employees on full operational procedures.
- Built Power BI dashboards to surface resource inefficiencies, enabling data-driven decisions that achieved a 7% cost reduction.
- Extracted and synthesized data from multiple sources using Excel, supporting stakeholder decision-making across operations.

Education

Goa Institute of Management, Goa, IN | PGDM, Big Data Analytics | Jun 2022 – Apr 2024

Relevant Courses: Marketing Analytics, Product Management, Storytelling using Data, Machine Learning.

Nagpur University, Nagpur, IN | BBA, Finance | Jun 2016 – May 2019

Projects

Exploring CitiBike Data

- Analyzed 25M+ rows of ride data using Databricks SQL, uncovering peak usage hours, top hubs, and variant trends.

Certifications & Achievements

- Awarded Exceptional Performance Award, Q4 FY26, by TeamLease HRtech, recognising outstanding module delivery impact.
- Earned HackerRank Gold Badge with 5 stars in SQL, demonstrating proficiency from beginner to advanced query concepts.
- Completed LinkedIn's Prompt Engineering for GenAI certification, skilled in generating high-quality, contextual AI outputs.

Leadership & Activities

Digital Campaigns, Learnathon: Led 5-member team managing social media, generating 10K+ organic engagements, 4K attendees.

Committee Member, Curio: Organized 10 workshops and 4 competitions centered around literature and creativity.
